

DIVE FUN: BladeFish underwater scooters are among the items in the Floating Impressions collection.

Get comfy afloat

BOATIES will soon get the chance to upgrade their at-sea creature comforts

Floating Impressions is cruising into the Coffs Harbour Marina on the bluewater sail catamaran SV CatNirvana.

On board will be an array of cruising comfort products all available for purchase.

Floating Impressions is the creation of two people who set out to explore new ways to make the cruising lifestyle more enjoyable and then bring the fruits of their

explorations to others to enjoy as well, whether on land or at sea.

Visitors on CatNirvana will see a display of stunning soft furnishings, apparel, jewellery, practical galley/kitchen aids, satellite communications, security systems, solar panels and a selection of fun watersport novelties, including the increasingly popular BladeFish underwater scooter.

CatNirvana is a 13.6m sail catamaran, launched on April 2010 in France and it arrived in Australia

after being sailed (by the Floating Impressions proprietors) from Sardinia to Sydney via the Panama Canal in 2011.

As a gesture of appreciation for the opportunity to exhibit at Coffs Harbour and a sincere thanks for their great services to mariners, Floating Impressions will donate 5% of Coffs Harbour sales to Coffs Harbour Marine Rescue.

The exhibition on CatNirvana will be open from 10am–4pm from Friday, September 28 to Monday, October 1.
